

## WHAT DOES MKI DO?

We see ourselves as a modern technology platform for **enclosures, HMIs, PCBs and inductors**. On your behalf, we take care of the **design, development and manufacturing of your products**. True to the motto "**Nothing is impossible!**"

### FreakSHOW

- Printed transparent heaters, sensors and antennas
- **Complexity champions** and specialists for prototypes and small series
- Mechanical and electrical test equipment for quality assurance
- Consultation and tips for **cost reduction** of parts and processes
- ...not to forget our **pretzel test**

## ALL KINDS OF ENCLOSURES

**Metal:** Sheet metal profile enclosures, micromechanics, from prototype to large series of enclosures from the coil.  
**Plastic:** Injection molding, deep drawing, silicone vacuum casting, milling/bending technology **WITHOUT** tooling costs.

## INPUT SYSTEMS

HMI such as membrane keyboards, silicone keyboards, touch systems, printed electronics. Double contact, illuminated keyboards, laminating and optical bonding.

## TRANSFORMERS & COILS

Custom ring core and shell transformers, coils, chokes, transformers, linear stators, antennas.

## PCBS

PCBs up to 20 layers, flex and starflex boards, printed electronics and RF PCBs.

## 3D PRINTING

Additive manufacturing in plastic and metal, 3D printing design, training and consulting FDM, FFF, FLM, SLA, DLP, SLT, SLS, MJF, MJP, PJM, AKF.

## PRODUCT DEVELOPMENT

Design and construction, CAD data creation, digital twin or design support. Brainstorming from the idea to the finished product.

## ONE-STOP DELIVERY

Manufacturing, assembly, cable assembly and testing of devices – MKI takes care of the complete delivery if needed!

**DO YOU HAVE A  
PROJECT IDEA  
YOU WANT TO  
SHARE WITH US?**

① **SUBMIT DATA OR IDEAS**

② **FEEDBACK IN 24H**

③ **QUICK OFFER**

④ **ORDER**

⑤ **EXPRESS DELIVERY**

⑥ **QUALITY, ISO**
